AAID Annual Conference brings ‘Excellence in Implant Dentistry’ to New Orleans

Author: AAID Staff

The American Academy of Implant Dentistry’s 65th Annual Educational Conference will be held Oct. 26–29 at the Hyatt Regency New Orleans.

Attendees have the opportunity to earn as many as 23.5 hours of continuing education credit focused on implant dentistry. More than 60 individual sessions, including nearly two dozen hands-on workshops and limited-attendance seminars, are offered. In-depth learning opportunities include full-day courses on implant placement and bone grafting on cadavers as well as a post-conference course on microsurgical principles in plastic periodontal and implant surgeries.

More than 1,000 implant dentistry professionals will hear keynote presentations from Leonard Bailey, MD, the pioneer in the field of newborn heart transplantation, and from Ed Zuckerberg, DDS, who will share his unique insights on social media for dentists. In addition, a live implant surgery will be broadcast to the conference with the opportunity to not only observe a procedure but ask the surgeon questions.

For three and one-half days, world-renowned clinicians will present and demonstrate excellence in implant dentistry. More importantly, attendees will be able to take what they learn back to their office and put into practice immediately. More information about the conference can be found at aaid.com.

Established in 1951, the AAID asserts that it is the only dental implant organization that offers credentials recognized by federal and state courts as bona fide. Its membership, which exceeds 6,000, includes general dentists, oral surgeons, periodontists and prosthodontists from across the United States and in 40 other countries.

The academy is known worldwide for its bona-fide credentialing program in implant dentistry. The rigorous requirements, coupled with AAID’s commitment to educate patients about implant dentistry and the importance of using a knowledgeable, experienced and trained implant dentist, such as an AAID credentialed member, sets the academy apart.
