Precision fit of the Simply Natural Digital Dentures CAD/CAM-printed baseplate increases stability during try-in, often reducing the number of appointments before delivery. The digital file is saved for five years.

“I just received back my first Simply Natural Digital Dentures case. The patient loves the fit especially; it even improved her ability to speak.”

Adam Myers, DDS
Morgantown, West Virginia

“The fit of the Simply Natural Digital Dentures was amazing. I was pleased with the use of this technique.”

C. Aydin Cabi, DDS
Aurora, Ohio

“The fit was awesome! I love the use of this new technology.”

Gregory Nicholson, DDS
Murfreesboro, Tennessee

“I love the awesome fit of the Simply Natural Digital Dentures!”

Bruce Wiley, DMD
Greybull, Wyoming

“This technique is great and resulted in the easiest try-in I have ever done.”

Michael Brogna, DMD, FAGD
Bensalem, Pennsylvania

The DocPort i.o. Intraoral camera features a focus-free design for ease of use and crystal clear imaging. Image acquisition is hassle-free via the easy-touch capture button located on the camera wand, or with optional USB footswitch. Direct computer connection using a standard inexpensive USB cable eliminates costly cable repairs and the camera is supplied with a remote automatic on/off handpiece holder. Easy integration with any dental software platform in both PC and Macintosh environments makes DocPort i.o. the natural choice for quality dental imaging.

James Rosenwald, DDS, FAGD
“I recently bought two DocPort cameras (to replace my older units) and found them so easy to use and so valuable to my practice that I have purchased three more units. I highly recommend this camera.”

Gerald Ross DDS—Tottenham, ON
“I’ve had cameras costing more than double, but my staff prefers the DocPort over any other because the pictures show incredible detail and it’s so easy to use. We’ve tried a lot of them, but this camera is amazing.”
