Take your pick

By Robert Selleck, today Staff

New products and services are yours for the picking in every aisle of the ADA 2015 exhibit hall. One of the easiest ways to quickly focus in on some of the best is to walk around the perimeter of the Pride Technology Expo booth (No. 3231).

The 2015 winners of the prestigious awards are on display just steps apart in the one central location. On Friday afternoon, representatives from many of the companies were on hand to personally receive the Pride Institute 2015 Best of Class Technology Awards on behalf of their companies.

Included among the more than 20 companies earning the honor are: Crosstex, for its DentaPure waterline purification system; Glidewell Laboratories (also in booth No. 2537), for BruxZir and its TS150 Mill; LED Dental (also in booth No. 849), for its VELscope Vx; Planmeca (also in booth Nos. 2003 and 2107), for the Planmeca Sovereign dental unit; and Shofu Den-

ADA education — now in 3-D!

By Fred Michmershuizen, today Staff

In a first-of-its-kind presentation at the ADA annual meeting on Friday afternoon, Dr. L. Stephen Buchanan, a practicing clinician from Santa Barbara, Calif., demonstrated some of the cutting-edge technology he uses in his practice.

*Magnification with a 3-D camera, CT imaging and 3-D printing allow dentists to see internal and external

TERAUCHI FILE RETRIEVAL KIT

The Terauchi File Retrieval Kit (TFRK) makes removal of separated file segments manageable and predictable for every clinician.

This micro-lasso is a technological innovation that will change the nature of file retrieval. The device is comprised of a micro-lasso at the end of a stainless steel cannula with a sliding handle that tightens the loop when pulled. File fragments can be removed with ease—making what was a frustrating process a simple and straightforward one.

Order today, call (888) 426-7780 or visit www.DentalCadre.com

TERAUCHI FILE RETRIEVAL KIT: $1,295 $1,299

International shipping available.

**EDUCATION**  
From page 1

dental anatomy that you would never see otherwise,” Buchanan told ADA before this year’s meeting. “It’s revolutionizing our endodontic training, diagnoses, treatment planning and procedures.”

During “The Art of Endodontics: A Live 3-D Clinical Demonstration,” Buchanan performed endodontic treatment on a patient’s upper first molar. His goal was to help attendees understand how CT imaging and 3-D technology can be used for diagnosis and treatment planning for complex cases. Earlier on Friday, he presented a lecture, “Treatment Plan: Endo Vs. Implants.”

Buchanan is founder of Dental Education Laboratories a teaching facility devoted to hands-on endodontic instruction. The company is exhibiting in booth No. 1961.

Speaking of the exhibit hall, there is a wide range of educational opportunities going on. There’s a Live Patient CAD/CAM Stage, a Dental Office Design Center, a New & Emerging Speakers Series, a Laser Pavilion, a Specialty Pavilion, a Health and Fitness Pavilion, an Interoperability Standards section, plus a Pride highly compact way to find all sorts of new high-tech products: Henry Schein is using the meeting to launch its new “Equipment & Technology Catalog,” which features expanded equipment offerings, digital imaging, CAD/CAM solutions, practice-management software and more. The catalog features a new digital resource that enables each page to transform into an online, interactive experience to better enable you make informed purchasing decisions.

By using the Henry Schein Xtra app, you can watch videos and product demonstrations, read product literature, learn about special events or promotions and connect with manufacturer apps or a Henry Schein representative.
