Anniversary dental meeting starts in Dubai

40,000 expected for UAE International Dental Conference and Arab Dental Exhibition

For the 20th consecutive time, the doors of the Dubai World Trade Centre will open this week to welcome dental professionals from all over the globe to the next UAE International Dental Conference and Arab Dental Exhibition (AEEDC Dubai 2016). Held for the first time in 1997, the event has become one of the largest and most important dental meetings worldwide, attracting tens of thousands of clinicians, scientists and the industry representatives each year.

According to AEEDC Dubai Executive Chairman Dr Abdul Salam Al Madani, this year’s edition has increased in size again and will occupy more 60,000 sqm exhibition space. Up to 800 manufacturers and dealers from the MEA region and beyond will showcase their latest product innovations and developments to visitors from the region. More than 40,000 participants are expected for the show, which will also feature one of the largest scientific programmes ever in the history of the event. Over the next the event has become one of the largest and most important dental meetings worldwide, attracting tens of thousands of clinicians, scientists and the industry representatives each year.

Good contouring is an important requirement for good disinfection and only two instruments. contoured well in the majority of cases. Straightforward root canals require these perfectly matched Endo Files allow root canals of various shapes to be instruments and instrumentation sequences. creates the perfect conditions for successful root canal filling.

Nickel-titanium files NTI Endo Clean

Endodontics has really picked up over the past few years. It is difficult for general dental practitioners to keep abreast of the numerous instruments and instrumentation sequences. These perfectly matched Endo Files allow root canals of various shapes to be contoured well in the majority of cases. Straightforward root canals require only two instruments. Good contouring is an important requirement for good disinfection and creates the perfect conditions for successful root canal filling.

The Eklund Foundation aims to support knowledge and development in the field of dentistry mainly by awarding funds to select research and education projects.

ROOTS SUMMIT 2016: Premier global forum for endodontics takes place in Dubai

This year’s ROOTS SUMMIT, which has drawn dental professionals to various locations all over the world in the past decade, will take place from Nov. 30 to Dec. 3 at the Crowne Plaza Dubai hotel in the United Arab Emirates. Aimed at updating participants about the latest in endodontic treatment, an unparalleled series of lectures and workshops will be held by global opinion leaders in the field.

Although the meeting will focus exclusively on the latest techniques and technologies in endodontics, the organizers have strongly encouraged not only dentists specializing in the field to attend but all who have an interest in endodontics, including general dentists and manufacturers and suppliers of endodontic products. Overall, about 700 attendees are expected.

Over the past 15 years, the ROOTS SUMMIT has grown significantly. The community originally started as a mailing list of a large group of endodontic enthusiasts in the 1990s. After the establishment of a dedicated Facebook group three years ago, membership increased from 1,000 to more than 20,000. Today, the group is composed of members from over 100 countries.

Previous ROOTS SUMMITS have been held in Canada, the US, Mexico, Spain, the Netherlands, Brazil and last year in India. These meetings have been known for the strength of their scientific programs and their relevancy to clinical practice. The lectures, workshops and hands-on courses scheduled for this year’s meeting will be no exception. More than 15 distinguished experts are presenting during the conference.

For the summit in Dubai, the organizers have partnered with Dental Tribune International (DTI) and the Dubai-based Centre for Advanced Professional Practices (CAPP) for the first time. With its international network, composed of the leading publishers in dentistry, DTI reaches more than 650,000 dental professionals in 90 countries through its print, online and educational channels, as well as a number of special events. Over the past decade, CAPP has been able to establish first-class standards for continuing dental education programs not only in the UAE but also across the Middle East. Since 2012, CAPP has been affiliated with DTI as a strong local partner in the Middle East.

Based on the successes of previous ROOTS SUMMITS, the organizers anticipate a large turnout for this year’s meeting. Various sponsorship opportunities are available, including booth space, as well as sponsorships of workshops, hands-on courses, meeting bags and social events.

Online registration for the ROOTS SUMMIT is now open at www.roots-summit.com.
