Victory Series Active Self-Ligating Brackets
The Victory Series™ brand family of orthodontic brackets from 3M Unitek is known by industry professionals worldwide for its quality. Now, this renowned family has expanded into the self-ligating bracket category, with the introduction of new Victory Series Active Self-Ligating Brackets. Victory Series Active SL Brackets bring active door appliances to a higher level of performance, featuring a ligating mechanism that provides durability and ease of operation. A full slot-width size door allows optimal rotational control, and no special instrument is necessary to open or close the door, so orthodontists can incorporate the brackets into their practice without changing their technique.
3M Unitek, booth No. 903

Icon
Icon by DMG removes post-ortho white spots in one patient visit without any drilling.
DMG, booth No. 1225

Planmeca Romexis 3-D Ortho Studio
Planmeca Romexis® is a comprehensive software suite used by dental professionals for acquiring, viewing and processing 2-D and 3-D images. Planmeca now offers Planmeca Romexis® 3-D Ortho Studio module, bringing innovative 3-D tools to orthodontists and dental laboratories. The new module is designed for examination and analysis of digital dental models scanned with Planmeca ProMax® 3-D X-ray units and for planning orthodontic treatments in 3-D.

Instrumentarium Dental unveils OP300 Maxio
Instrumentarium Dental, a designer and manufacturer of advanced imaging solutions, extends its extra-oral product line with the new, feature-rich OP300 Maxio Pan/Ceph/3D, its most advanced imaging system. The latest addition introduces new and larger fields-of-view for dental and maxillofacial imaging and a revolutionary low dose technology (LDT) delivering quality-optimized cone-beam 3-D scans with very low radiation dose, up to five times lower than traditional 2-D panoramic images.

WildSmiles Braces
WildSmiles are the only braces that turn correction into expression. According to the company, WildSmiles offers a proven treatment option that has been trusted by orthodontists for a decade. Brackets with patented shaped designer pads allow patients to express their individuality during treatment. A clinical study recently published in the AJD-DO finds WildSmiles are selected by 70 percent of young patients.

GumChucks’ ORTHOgami
Flossing braces just got faster. GumChucks’ ORTHOgami offers effective ortho flossing in less than two minutes. ORTHOgami’s two handles and revolutionary tip make flossing braces a snap. No more threading, no more excuses. View a video demo at www.Gumchucks.com.

PhotoMed G15 Digital Dental Camera
The PhotoMed G15 Digital Dental Camera is specifically designed to allow you to take all of the standard clinical views with frame-and-focus simplicity. The built-in color monitor allows you to precisely frame your subject. Then, focus and shoot. Proper exposure and balanced, even lighting are assured. By using the camera’s built-in flash, the amount of light necessary for a proper exposure is practically guaranteed.

LED Imaging’s RAYSCAN Alpha – Expert
LED Imaging’s first digital extraoral imaging system, the RAYSCAN Alpha – Expert, offers CBCT, panoramic and cephalometric capabilities. Developed by Ray Co., Ltd., a subsidiary of Samsung, the system’s CMOS and Direct Deposition CsI Detector ensure practitioners can quickly capture high-quality, 16-bit DICOM images at a low radiation dose, and its focal trough is optimized and controlled through adaptive moving focus technology. Demo the RAYSCAN Alpha – Expert at LED Imaging’s booth, No. 754.
LED Imaging, booth No. 754

i-CAT FLX
The i-CAT FLX is the newest system in the i-CAT family of cone-beam 3-D imaging products, offering 3-D planning and treatment tools for orthodontics. Features of the i-CAT FLX include: full dentition 3-D imaging at a dose lower than a 2-D panoramic X-ray; QuickScan, Visual iQuity™ advanced image technology to deliver the clearest 3-D and 2-D images; an easy-to-use, guided workflow with the SmartScan STUDIO™ touchscreen interface; ability to capture traditional 2-D panoramic images with the i-PAN™ feature; and an Ergonomic Stability System to minimize patient movement and maximize the accuracy of the scanning process.

Dexta for orthodontists
Dexta offers a complete selection of stools, lights and custom-made cabinets. The company aims to provide ‘the perfect combination of elegance and function.’
Dexta, booth No. 2337

Kaleidoscope Custom Layouts
Kaleidoscope, a fully customizable, in-office marketing tool, announces its new Custom Layouts feature. Enjoy the freedom to mix and match backgrounds and templates, giving you even more creative flexibility. Each quarter, the company adds new content or introduces new product enhancements to keep Kaleidoscope fresh and exciting.
