Here is a look at some of the products you’ll want to check out in the exhibit hall

**Esprit, Class II corrector**
Esprit, a Class II corrector, brings a variety of unique features, including a CNC-machined body that is smooth and durable and a new, innovative, patented clip. The clip is guaranteed to be easy to install and remove, and it stays in place without disengaging during treatment. Esprit also features a mesial hook that prevents rolling into the occlusion. The hook is smooth for patient comfort and can be removed with ease — no cutting required. Esprit’s enclosed stainless-steel spring prevents painful pinching and unhygienic trapping of food. This enclosed spring also resists deformation and maintains consistent force throughout the patient’s wear. The entire corrector is laser welded, allowing it to withstand even the toughest treatment from any patient — 100 percent guaranteed.

**Opal Orthodontics, booth No. 1715**

**Edge Animation App**
The Edge Animations app is a free Apple/Android application for all orthodontists and orthodontic residents. The app contains an ‘Introduction to Orthodontics” video that explains to your consulting patients and parents why treatment from a certified orthodontist matters. The Edge Animations app also includes many compliance videos to help ensure patients are fully informed about their treatment, with videos on brushing, foods to avoid and much more.

**Ortho2, booth 413**

**Epic X**
Epic X from Biolase is the newest generation of the company’s award-winning portable dental laser. Epic X features pre-initiated tips, laser-assisted whitening and temporary relief of minor pain, all from a single diode laser solution. Biolase also is offering a reliability assurance plan, which ensures users are never without the Epic X for more than 24 hours.

**i-CAT FLX**
The i-CAT FLX is the newest system in the i-CAT family of 3-D cone-beam imaging products, offering 3-D planning and treatment tools for orthodontics. Features of the i-CAT FLX include: full dentition 3-D imaging at a comparable dose to a 2-D panoramic X-ray with QuickScan+, an easy-to-use, guided workflow with the SmartScan STUDIO touchscreen interface, ability to capture traditional 2-D panoramic images with the i-PAN feature, an ergonomic stability system to minimize patient movement and maximize the accuracy of the scanning process, and exclusive Tx STUDIO software with specific orthodontic treatment planning tools and integration with CAD/CAM applications.

**i-CAT Imaging Sciences, booth No. 2037**

**Clarity ADVANCED Ceramic Brackets**
Clarity ADVANCED Ceramic Brackets are a leading treatment choice and a perfect balance of innovation and design. The translucent ceramic material blends with the color of a patient’s teeth and resists staining and discoloration, so anyone can smile with confidence during treatment. The bracket’s low profile and rounded corners also makes it comfortable to wear. And if you have patients that want colored ligatures, Clarity ADVANCED Brackets make the colors “pop.”

Assure Plus All Surface Bonding Resin

Assure™ Plus All Surface Bonding Resin makes it possible to bond directly to every intraoral surface using one bonding primer and any bonding paste — chemical or light cured. The product increases adhesion to normal, atypical, dry or slightly contaminated enamel, and now zirconia and acrylic temps, without additional primers. The universal bonding agent also bonds to metal restorations and porcelain.

WildSmiles Braces

WildSmiles are the only braces that turn correction into expression. According to the company, WildSmiles offers a proven treatment option that has been trusted by orthodontists for a decade. Brackets with patented shaped designer pads allow patients to express their individuality during treatment. A clinical study recently published in the AJO-DO finds WildSmiles are selected by 70 percent of young patients. Stop by the WildSmiles booth during the show to try your hand at a giant Jenga game. You could walk away with an historic $2 bill if you can successfully pull a brick and place it on top without the tower falling.

WildSmiles, booth No. 3010

ClearCorrect

ClearCorrect works with more than 2,000 orthodontists and is a leading manufacturer of clear aligners. Visit the booth to receive 50 percent off your first case.

**M5 G&H Thermal Copper Nickel Titanium Wire**
The M5 G&H Thermal Copper Nickel Titanium Wire is a premium nickel titanium wire that incorporates a precise temperature transformation at 27 degrees Celsius for predictable tooth moving forces. G&H quality manufacturing and testing processes make M5 distinct from other archwires used in orthodontics.
*G&H, booth No. 2029*

**The Myobrace for Braces series**
The Myobrace for Braces series is a new addition to the Myobrace appliance range. It is a three-stage appliance system, which facilitates the treatment of the habits causing malocclusion alongside simultaneous treatment with fixed orthodontic braces. The appliance series, which can assist in providing more stable orthodontic treatment results, incorporates the B1 for habit correction, B2 for habit correction and arch expansion and the B3 for habit correction in the retention phase with clear aligners.
*Myofunctional Research Company, booth No. 1843*

**EyeSpecial C-II**
The EyeSpecial C-II digital dental camera is designed exclusively for dentistry featuring 12 megapixels and 8 shooting modes which are easier, faster and more reproducible to ensure the best quality of images are achieved. The EyeSpecial C-II offers a high performance 49mm close-up lens, intuitive one-touch operations, an ultra lightweight sleek body design and a large LCD touchscreen, which allows the user to view and scroll through images effortlessly, even with a gloved hand.
*Shofu Dental, booth No. 3536*

**Rayscan Alpha Imaging System**
The RAYSCAN Alpha is a state-of-the-art digital extraoral imaging system developed by RAY Company, a spin-off of Samsung. Combining high-resolution pan/ceph/CBCT imaging with a low-dose setting, the RAYSCAN Alpha provides a combination of image resolution and patient safety. The system comes with a standard five-year warranty for peace-of-mind with your imaging investment.
