Helping you do it yourself

The EZ Care® Handpiece Maintenance Kit is the latest addition to the ProScore line of products. These maintenance kits are customized to your handpiece and include everything needed to keep the handpiece in optimal running condition:

- XTend Ceramic turbine
- Smart Cleaner
- gaskets
- coupler o-ring sets
- handpiece cleaner/lubricant
- detailed maintenance instructions and other products.

The EZ Care Handpiece Maintenance Kit complements both ProScore’s in-office repair product line and the ProRepair/ProService Handpiece and small equipment maintenance courses presented at various dental shows.

XTend Ceramic kits and turbines for high-speed handpieces

With the XTend Ceramic line of turbines and kits, ProScore offers dentists the best quality do-it-yourself products for high-speed handpieces in the market, according to the company. Not only are XTend Ceramic products backed with one of the best warranties in the business — one year for turbines and six months for rebuild kits — but XTend products have been known to outperform steel bearings, last longer and produce less noise and vibration.

The ceramic bearing technology incorporated in XTend Ceramic products provides many handpiece performance benefits:

- Reduced wear: Ceramic balls are twice as hard as steel balls.
- Increased durability: Ceramic balls are 40 percent lighter than steel balls, which reduces the internal forces and loads caused by high-speed rotation.
- Longer life: Ceramic bearings perform better than steel under marginal lubrication.
- Quieter and smoother operation: Noise and vibration are reduced as a result of lower loads.

Other EZ Solutions

ProScore’s other EZ Solutions offer dentists various do-it-yourself repair and maintenance options:

- EZ Press III™ and EZ Rebuild™ Kits: The EZ Press III Repair System is the answer to the high costs and downtime associated with sending high-speed handpieces out to be repaired. Allowing the dentist to easily change those parts that have worn out, the EZ Press III utilizes simple procedures, requires no guesswork and ensures precision placement of the bearings on the spindle.
- EZ Install™ Turbines: For an instant repair, dentists can replace cartridges chairside with EZ Install Turbines, which are manufactured with high-quality parts and quality assurance procedures, including dynamic balancing. The result is a high-performance, long-lasting turbine that often outlasts others in the market, according to ProScore.
- Smart Cleaner: The Smart Cleaner is a one-of-a-kind maintenance tool that not only helps prevent residue build-up in handpieces and coupler waterlines but also clears away obstructions if they occur. Simply connect the handpiece or coupler to the Smart Cleaner and activate the hand pump to clear obstructions and debris.
- EZ Care® Cleaner and EZ Care Lubricant: EZ Care Cleaner was formulated to flush debris and remove build-up from the handpiece’s internal rotating parts, improving long-term handpiece performance and sterilization efficacy. EZ Care Lubricant has been designed to minimize bearing wear and to resist corrosion. When used together, EZ Care Cleaner and EZ Care Lubricant ensure that handpieces and accessories will achieve maximum longevity and maintain optimum performance.

ProScore has been dedicated to do-it-yourself handpiece repair and maintenance since entering the dental market more than 15 years ago as Score International.

Now, ProScore is part of Henry Schein’s “Family of PROs,” including ProRepair and ProService, which aims to offer you the best fit for your repair needs.
A-dec, a worldwide leader in dental equipment solutions, announces the introduction of additional options for its popular A-dec 500® dental chair to accommodate a greater variety of operator needs.

One of the new options, the A-dec 300® Radius®-style delivery system, offers versatile integration in a compact system. The A-dec 300 Radius-style delivery system features a standard three-position control block or optional four-position block with room for up to two integrated accessories, including an intraoral camera or a curing light.

In addition to the A-dec 300 Radius-style delivery system, a dual-mount also allows the option to add a Radius-style dental light or monitor mount to the A-dec 500 dental chair. The A-dec 300 Radius-style dental light offers horizontal and vertical adjustment and two intensity settings: high and composite. The monitor arm on the A-dec Radius-style monitor mount rotates 340 degrees and tilts plus or minus 45 degrees to support multiple viewing angles.

A-dec Radius-style options pivot around the A-dec 500 dental chair to accommodate both right- and left-handed operators.

To learn more, visit www.a-dec.com or stop by the A-dec booth, No. 2410, here during the Yankee Dental Congress.

Keystone’s long, storied history

Keystone Industries’ history dates back to as early as 1900 and is one that the company is extremely proud of. Keystone Industries is composed of several dental and medical manufacturing and distribution subsidiaries, which include National Keystone, founded in 1930, Tri-Dynamics founded in 1977, Mizzy (which includes Syrijet), founded in 1900, Ped-O-Jet, founded in 1968, and T&S Dental and Plastics Manufacturing, now known as Keystone Industries-Myerstown, founded in 1976. Dental Resources, also located in Myerstown, Pa., was acquired in March 2003. Keystone merged with Deepak Products in 2008. Keystone Industries is a leading manufacturer in denture acrylics, thermal forming materials and machines, APF fluoride gels and foams, prophyl paste, high-volume evacuators and packaging material. In addition, Keystone runs the gamut from abrasives, carbides, chemicals and brushes to crucibles, Fleck’s cement, PIP paste and the Syrijet for the dental industry. Keystone has the ability to manufacturer almost any resin, plastic or chemistry found in the marketplace on an OEM or private-label basis.

For more information on Keystone Industries, stop by the booth, No. 2410.
PHOTOMED G12 DIGITAL CAMERA

The PhotoMed G12 Digital Dental Camera is specifically designed to allow you to take all of the standard clinical views with “frame and focus” simplicity.

The built-in color monitor allows you to precisely frame your subject. Then focus and shoot. It’s that easy.

Proper exposure and balanced even lighting are assured. By using the camera’s built-in flash, the amount of light necessary for a proper exposure is guaranteed, and PhotoMed’s custom close-up lighting attachment redirects the light from the camera’s flash to create a balanced, even lighting across the field.

For more information, visit www.photomed.net, call (800) 998-7765 or stop by the PhotoMed booth, No. 2105, here during the Yankee Dental Congress.

INTEGRITY MULTI-CURE TEMPORARY CROWN AND BRIDGE MATERIAL

New Integrity® Multi-Cure Temporary Crown and Bridge Material is a dual-cure 10:1 bis-acryl ic material with improved flexural strength. Integrity Multi-Cure can be used as a self-cure material but also provides the option to eliminate wait time by light curing each unit for 20 seconds. Integrity Multi-Cure has the fastest cure-time range among leading competitive products.

Integrity Multi-Cure is available in a 76-gram cartridge delivery system with five refill shades — A1, A2, A3.5, B1 and BW — and in an introductory kit including Integrity Multi-Cure material, Integrity TempGrip cement and cartridge dispenser.

For more information, visit www.integritymulticure.com, call (800) 532-2855 or visit the DENTSPLY Caulk booth, No. 2412, here during the Yankee Dental Congress.
