Congress programme of the 22nd Annual Scientific Meeting of the EAO

Thursday, 17 October
13:45–16:30
Planning for Success—How to Make it All Go Right (Plenary Session, Auditorium)
- Minimising errors in implantology: prevention vs. intervention
  Mark Pinsky, USA
- Simple methodology for successful planning in implant dentistry
  David Sarmiento, USA
- Can we depend on generally held beliefs in implant dentistry
  Anselm Wickert, Switzerland

Emerging technologies in tissue regeneration that can enhance patient care (Parallel Session, Liffey B)
- The future of stem cells and tissue engineering
  Ivor Lambrecht, Belgium
- Future developments in implant surfaces: can they enhance clinical outcomes?
  Peter Thomsen, Sweden
- Should implants have a peridental ligament?
  Philippe Gaill, France
- 3-D tissue regeneration: is it fantasy or reality?
  Isabella Biocchieta, Italy

Friday, 18 October
8:30–10:00
Learning and sharing clinical dentistry in a virtual world (Parallel session, Liffey B)
- Application of today’s technology towards e-learning
  Brian Mait, UK
- Future trends of dental education
  Nikos Mattheos, China
- Digital platforms from a developer’s point of view
  Florian Schoder, Switzerland
- Privacy and EHealth – Legal aspects
  Yvo Vernoyen (Belgium)

09:00–12:30
Peri-implantitis—A growing problem or a manageable complication (Plenary Session 2, Auditorium)
- Rethinking implants as foreign bodies
  Torsten Jemt, Sweden
- Physiological bone remodelling—systemic and local risk factors
  Reinhard Gruber, Switzerland
- Peri-implant diseases—systemic and local risk factors
  Stefan Rentwert, Sweden
- Peri-implant bone loss related to cement and screw retained prostheses
  Paolo Vigolin, Italy
- Can soft tissue augmentation minimise the risk of peri-implantitis?
  Gerhard Igha, Germany

Short Oral Communications (Wicklow Hall)
11:00–12:30
Risk Factors in Implant Dentistry (Parallel session, Liffey B)
- Surgical Causes of Neuropathic Pain
  Keith Smith, UK
- Does mechanical loading affect implant prognosis?
  Joke Duyck, Belgium
- Update on Bisphosphonate Therapy and Implant Surgery
  Carlos Madrid, Switzerland
- Is Smoking Still a Risk Factor?
  Raffaele Cavalcanti, Italy

14:00–16:30
Treatting the partially edentate resorbed posterior maxilla
(Plenary session, Auditorium)
- Restorative Options for the Posterior Maxilla: Possibilities and Limitations
  Henk J. Meijer, The Netherlands
- The Lateral Osteotomy Approach in Sinus Augmentation: Possibilities and Limitations
  Friedrich W. Neukam, Germany
- The Transalveolar Approach in Sinus Augmentation: Possibilities and Limitations
  Ivo Lambrichts, Belgium
- Are Short Implants a Reliable Option? Possibilities and Limitations
  David Nisan, France
- The Role of Zygomatic Implants: Possibilities and Limitations
  Ruben Davo, Spain

Replacing a missing incisor (Parallel session, Liffey B)
- Clinical Techniques for Predictable Results
  Franck Bonnet, France
- Management of Gingival Recession on Adjacent Teeth
  Markus Huzelka, Germany
- Is Immediate Implant Placement Worth the Risk?
  Mariano Sanz, Spain
- The role of Socket Preservation
  Mauricio Araujo, Brazil
- Restorative Options for Aesthetic Defects
  Irena Sailer, Switzerland

Saturday, 19 October
9:00–12:20
Implants in an ageing population (Plenary session, Auditorium)
- Twenty First Century Science and the impact of Global Ageing
  Roie Anor Enny, Ireland
- Is Old Age Compatible with Oral Health?
  Angus Walls, UK
- Surgical Challenges in the Treatment of the Elderly
  Tara Renton, UK
- Simplification of Surgical Procedures: The Immediately Loaded Single Implant- Retained Mandibular Overdenture. A 9–10 Year Review of a Prospective Study
  Glen Liddle, Australia
- Simplification of Prosthetic Treatment: Options and Complications
  Franco Muller, Switzerland

Emerging technologies in computer assisted implant rehabilitation (Parallel session, Liffey B)
- Digital Planning and CAD/CAM Materials in Implant Prosthodontics
  Petra Gues, Germany
- Developments in Digital Implant Impressions
  German Galicci, USA
- Advances in CAD/CAM Technologies
  Vincent Feher, Switzerland
- Extending the Boundaries of Computer Assisted Rehabilitation
  Lawrence Brechta, USA
- Emerging Developments in 3-D Imaging and 3 D Printing Technologies
  Andrew Dawood, UK
- A view of the Future: Closing remarks
  Matt Anderson, Sweden

Short Oral Communications (Liffey Hall 2)
13:30–15:00
Extended Defects in the Aesthetic Zone—Dreams, Nightmares, Reality
(Plenary session, Auditorium)
- Is Hard and Soft Tissue Grafting the Key to Success?
  Ronald E. Jung, Switzerland
- Clinical Procedures to Achieve Predictable Aesthetics
  Stefano Graci, Italy
- Designing Restorations to Improve Aesthetic Outcomes
  Mauro Fradeani, Italy
- How to Deal with Aesthetic Complications
  Ueli Grunder, Switzerland

Dates and times are subject to change. Last update was 7 October, 2013.
