Are you having difficulty extracting teeth? Are you referring many of your patients? Do you wish your extractions could be more predictable? Do you wish to render painless treatments? Do you wish to master immediate implant techniques?

If you answered yes to any of these, the Extraction Academy is the answer.

The Extraction Academy will teach you about all extraction procedures. Topics include full-mouth extractions, impacted teeth, how to expose teeth for orthodontic treatment, wisdom teeth (any impaction category), calcified teeth, fully and partially erupted teeth, infected teeth, root tip extractions, complex cases, head and neck anatomy, pharmacology, intravenous sedation, guided bone regeneration, tips and tricks, complications management, immediate implants, surgical instruments, nomenclature, proper use and application.

Through a blended learning platform, the Extraction Academy will provide all the tools you will need to learn, practice, improve and implement your daily treatments.

The Extraction Academy specializes in continuing education workshops and lectures for general dentists, periodontists, oral implantologists, oral surgeons and endodontists. Courses are designed around practical hands-on lectures.

The next course will take place May 3 in Anaheim, Calif. Cost is $1,750 (with a $150 coupon discount). The course fee includes course instrument rental, course documents, online education and C.E. unit certification.

Register online at www.extacademy.com or contact info@extractionacademy.com or call +32 486 920 435 for more information.

SternSnap Overdenture Implant Abutment System

- Sterngold Dental, a leader in dental products, launched the new SternSnap Overdenture Implant Abutment System, which can be used to retain overdentures on some of the most popular implants.

The system features a low profile that takes up only 2.5 mm of height in the denture. It has a long-lasting plastic retention cap that comes in three retention levels (1 lb, 2 lb and 3 lb) and doesn’t require a metal housing, making it a simpler, more economical option, according to the company. Founded in 1897, Sterngold Dental specializes in alloys, attachments, implants and restorative systems. Examples are the Sterngold ERA family of resilient dental attachments and the Natural Profile Abutment System for esthetic restoration of osseointegrated implants.

For more information, visit www.sterngold.com, call (800) 243-9942 or stop by the booth, No. 2013, here in Atlanta.
FUSION-Zr™ Multi-Purpose Veneer Cement
& Dual Cure Resin Cement

- Self Adhesive
- Color stable
- Seals out micro-leakage

The annual AACD Scientific Session, taking place May 6–9 in San Francisco, will offer attendees so much more than the traditional hands-on workshops and lectures. This year’s educational lineup incorporates specialized courses to fulfill every dental professional’s niche.

**Live dentistry in the exhibit hall**

Live dentistry was one of the most sought-after educational sessions at AACD 2014. Register now to take advantage of this year’s sessions, featuring AACD’s best: Dr. David Hornbrook, Dr. Jeff Brucia and Dr. Brian LeSage. This live dentistry experience, “Education in the Round,” was created in partnership with the American Dental Association. The goal is to provide attendees with real-life demonstrations of procedures for which AACD dentists are highly recognized.

**Blended Education**

Blended Education, offered jointly with Cosmedent, offers attendees the opportunity to earn up to nine C.E. credits through the completion of several online courses and one on-site course taught by Dr. Bud Mopper. Details for blended education can be found at www.aacd.com/blended.

**International Summit**

The International Summit comprises a group of presenters representing AACD affiliates from around the world. The AACD has offered these individuals the chance to present in one-hour time slots at the meeting to educate attendees about clinical advances, from smile design and patient/dental psychology to techniques for biomimicry and lasers.

**‘Cosmetic Dentistry: The Next Generation’**

Gain insight from cosmetic dentistry’s next generation of leaders during “Cosmetic Dentistry: The Next Generation.” Featuring five up-and-comers in the industry, this session will open your mind to new perspectives on dentistry from young dentists who are eager to share their passions — from implants to periodontics to digital smile design — with you.

**AACD power sessions**

Learn about the latest in marketing, practice management and implants in these quick-bite power sessions, created to energize and inspire you. Featuring some of AACD’s most popular educators, these sessions — internet marketing, implants and practice management — are a perfect addition to your already solid educational lineup, according to the AACD. Visit www.aacd.com/powersessions for the complete list.

**Member Pearls in the exhibit hall**

Member Pearls offer attendees the chance to learn from select AACD members on new and innovative topics in a 30-minute format. These sessions — from esthetic orthodontics to tissue reconstructions around implants — are among some of the most popular at AACD meetings.

**Lab tech track**

AACD understands the pivotal role laboratory technicians play in achieving an ideal final result. New this year is a special lab focus program, offered in partnership with Spectrum Dialogue.

**Team track**

AACD 2015 offers education to bring dental teams together, with topics including whitening, smile design and photography, communication and more.

**Practice management track**

Being a dentist means you give your patients the smiles of their dreams, but it also means you’re running a business. Learn how to maximize your practice’s profitability and potential with these courses.
