More visitors than ever will be attending the International Dental Show (IDS) in Germany, representatives of the organiser Koelnmesse and the Association of German Dental Manufacturers announced at a press conference last December in Bergisch Gladbach near Cologne. They said that over 125,000 professionals are expected at the world’s largest dental showcase, which will be held again in a month’s time, to learn about the latest developments and trends in dentistry.

With registrations in early December already surpassing those from the 2013 show, a record number of dental companies have already registered for the five-day event. Owing to the increase, the show will occupy an additional hall at the Koelnmesse fairground, extending the overall exhibition space to 150,000 m² for the first time.

According to Koelnmesse Chief Operating Officer Katharina C. Hamma, almost every fourth company exhibiting at IDS is from outside Germany.

“The high level of internationality and the wide range of exhibits are unique worldwide. This is why the International Dental Show is a must-attend event for anyone who is involved in the dental business,” she said.

Chairman of the Association of German Dental Manufacturers Dr Martin Rickert said that, while the show will cover the entire spectrum of dental products, a special focus will be on the ongoing digitalisation in dentistry and linking of different systems for better diagnostics and treatment. The latest developments, including new and improved filling materials in conventional fields like restorative dentistry, will be on display as well. As a first, IDS 2015 will have Career Day, which is intended to serve as a meeting platform for the industry and young dentists. Professional visitors will also have the opportunity to experience the use of new technologies as part of the novel Know-how Tours, which are being organised in collaboration with two well known dental practices in Cologne. Proven features, like the Speakers’ Corner lecture forum and Dealers’ Day on the first day of the show, will be continued.

Held every two years in the Rhine city, IDS is one of Germany’s oldest trade shows and is organised by the dental industry in Germany. In recent years, it has developed into one of the most important global exhibitions for dental products and services, attracting professionals from over 140 countries. Most companies choose to premiere their newest product developments here.
